What families say about our impact:

"Candlelighters' financial help was a life saver.

It kept us from falling too far behind on bills, and aided in gas cards for going to and from his appointments."

"You can explain to your family, to your friends, and to other people what this feels like — but no one understands it on a level that other families do."

"It has been cool and life changing. We have met a lot of great people along the way and made so many friends. The moment we joined, he made two friends and enjoys his time with them."

"Having that peer group changed something in him!

Seeing him rejoin the teen world which he had withdrawn from was so amazing and beautiful... Chemo helped cure his cancer, but his work with Candlelighters helped heal his heart!"

"This pantry saved me, as I could not leave my daughter's side for more than a minute. She and I both frequented the snack cupboard... It was just enough to keep me going."
